AMENDMENTS TO THE SPECIFICATION

Please amend paragraph [0085] on page 50, as follows:

[0085] (fifth embodiment)

Next, with reference to FIGS. 18 ~~17~~ and ~~18~~ 19, fifth embodiment of the present invention is described. In the fifth embodiment, an AV content is used for a view purpose of editing a highlight in a program section. In a highlight edit, highlight sections are extracted from an AV content, and the extracted highlight sections are displayed, on a screen, in thumbnails. A user selects a favorite highlight scene from the thumbnails and records the selected highlight scene to a separate medium.
